Disease germs propagate with lightninglike rapidity. Once in the blood, the
only way to get rid of them is to kill them. This is what Dr. Pierce's Golder Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is the only part of what it does. It assists digestion by stimul ating the secretion of digestive fluids so promoting assimilation and natrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a diseaseresisting state.
